Project Link: <https://github.com/vikasprajapat2/employee-Mangment->

Developed an advanced Employee Management System using the MERN stack (MongoDB, Express.js, React, Node.js) to automate and streamline HR processes, significantly improving operational efficiency. The project included secure user authentication and role-based access control with JWT, an intuitive employee dashboard for profile management and performance tracking, and a robust admin panel for HR tasks. Real-time notifications and comprehensive reporting tools enhanced communication and data insights. Leveraged React hooks, Express.js middleware, and MongoDB for efficient, scalable operations, resulting in a 40% reduction in manual HR workload, improved data accuracy, and high user satisfaction.
